### Celebrating the World Teachers Day 2022

#### CALL FOR TESTIMONIES (VIDEO CLIPS)

### The Transformation of Education Begins with Teachers

Deadline to Submit the testimonies: 18 October 2022

#### Background

#### What is WTD 2022 advocating for at the global level?

In 2022, World Teachers' Day will celebrate teachers' instrumental role in transforming education and will advocate for bold strategic actions by policymakers, teachers themselves and civil society. As the Transforming Education Summit has affirmed, teachers and education personnel should be supported and empowered to innovate and transform teaching from within. Every country should now strive to have an empowered education workforce that is professionalized, trained, motivated, and supported. This entails an adequate number of qualified teachers with access to quality initial education and continuous professional development throughout their careers, improved status and working conditions, and the acknowledgment and enhancement of their, autonomy, agency, leadership, and capacity for innovation.

Following the adoption of the report of the International Commission on the Futures of Education, the global education community is expected to adopt in September 2022, at the UNSG-led Transforming Education Summit (TES) a set of commitments to transform education so that it meets the learning needs of all, for the world of today and tomorrow and revitalize national and global efforts to achieve SDG-4.

The state of the teaching profession worldwide is far from meeting the TES commitments and the situation requires urgent responses. The World Teachers' Day 2022 commemorations will focus on the support that teachers need to fully contribute to educational transformations and will advocate for bolder actions by all stakeholders: national and international policy makers, civil society at large,

private sector actors, as well as learners of all ages and teachers themselves.

In Bangladesh, despite the many challenges posed by the sudden shift to distance learning, teachers played a critical role in maintaining learning continuity during the 18-month school closure caused by Covid-19. Following the school reopening from 12 September 2021, teachers are on the frontline to ensure safe school reopening and contribute to the delivery of blended education to compensate for the learning losses of students to the extent possible.

The Ministry of Education (MoE), Ministry of Primary and Mass Education (MoPME), Directorate of Secondary and Higher Education (DSHE), Directorate of Primary Education (DPE), Directorate of Madrasah Education (DME), Directorate of Technical Education (DTE) and a2i ICT Division, in partnership with the UNESCO Office in Dhaka, are joining hands to celebrate the 2021 WTD. As part of the celebration of the WTD 2022 in Bangladesh, DSHE, UNESCO Dhaka Office and a2i are calling for video clips from teachers to mark teachers' innovation in challenging times of Covid-19 and teachers need to fully contribute to educational transformations and will advocate for bolder actions by all stakeholders: national and international policy makers, civil society at large, private sector actors, as well as learners of all ages and teachers themselves.

### Objectives

To celebrate the 2022 WTD, all teachers from Bangladesh are invited to share with us a video clip that responds to **ONE** of the following themes:

- **Teachers' leadership and innovation:** How can teachers transition and transform their current education strategies to blended education during recovering from the Covid-19? What concrete and easy-to-replicate strategies may be utilized? What support do teachers need?
- **Conveying Professional Quality Development of Teachers thinking of Future Education:** Engaging in professional development training guarantees that academic and practical qualifications do not become out-of-date or outdated, allowing individuals to 'up skill' or 're-skill' regardless of vocation, age, or educational level.

### Guidelines for Submitting a Video Clip

#### a) Who can participate:

- Teachers who wish to submit the video clips should be the teachers of educational institutions in Bangladesh.
- One teacher can submit a maximum of one video clip responding to one of the two themes mentioned above.
- No limited number of teachers from an institution who wish to participate in video clip submission.
- Teachers who are engaged in education offices need not to apply.

#### b) How to produce the video clips:

- Teachers who wish to join this program should produce the video/lecture clips in multimedia format for **3-5 minutes** (Should not be over 5 minutes) that respond to the guide questions.
- The video clips must be in **Bangla or English**.
- The video clips must be uploaded on YouTube or Google Drive through which a link can be created and shared with us.
- For the best viewing experience, it is recommended to use a **16:9 ratio** (horizontal) while producing the video.
- An introduction should include: Institution logo (if available), Teacher's name, position, institution, Title/topic of the video clip.
- At the end of the video, credits and acknowledgement are recommended to be included.

**c) How to submit the clips and deadline**

- The deadline for submission of the clips is on 18 October 2022 (midnight, Bangladesh time).
- Video clips must be submitted through [worldteachersday2022dshe@gmail.com](mailto:worldteachersday2022dshe@gmail.com)

**d) Permission to publicize the video clips**

- Teachers should allow the organizers to publicize the video clips at the Teachers' Portal, official website, social media and other online platforms of DSHE, UNESCO Dhaka Office and a2i.
- Teachers should allow the organizers to store their video clips at the Teachers' Portal in compliance with the CC license.
- Findings from those video content will be incorporated in 5 pillars of Blended education framework.

**e) Criteria for selecting the video clips (Marks in percentage)**

Interesting and innovative content	30%
Practical skills embedded and easy to understand	30%
Creativity in presentation	20%
Usefulness and relevance	20%
Total	100%

**Certificate and incentive**

All teachers who will submit video clips that meet the requirements in the guidelines will receive a "Certificate of Appreciation" signed by the DSHE.

Each of the top winners of the call for video clips will receive a tablet.

Each of the top 27 (3 participants from 9 zone) winners of the call for video clips will receive a tablet or smart phone provided by Huawei Technologies in Bangladesh. Huawei Technologies is a member of UNESCO's Global Education Coalition. As a localized leading global ICT solutions provider in Bangladesh since 1998, Huawei has supported several ICT in education initiatives, including the Seeds for the Future Program and ICT Competition, ICT Mobile Training Bus Project, Digi-school Programme and ICT Academy.
